Insider Tips

- Make note of signs indicating where your furry friend is welcome, and keep them leashed when it's required. Always check the rules and regulations for individual areas before proceeding.
- As much fun as it is to play in the snow, some dogs are more suited for the snow than others. Pay attention to the effects of the cold air and snow on your dog, and plan your day's activities accordingly!
- Bring a doggie bowl on your dining adventures, as most dog-friendly restaurants are more than happy to top off dog bowls with cool water.
